(HEALTH OF LIVE-STOCK DURING OCTOBER 1951.)

Notification dated 14th November 1951.

In their order of severity, outbreaks of Rinderpest, Blackquarter, Hæmorrhagic-septicæmia, Anthrax, Foot and Mouth, Ranikhet, Sheep-pox, Contagious-goat pleuro-pneumonia, Goat-pox and Gastro-entritis were encountered in the State during October 1951. Altogether 279 villages were reported to have been affected by one or the other of the several contagious and infectious diseases, as against 236 villages during the previous month. The number o outbreaks was highest in Kolar, Tumkur and Mysore Districts, while Shimoga, Mandya and Chikmagalur Districts were least affected. These diseases accounted for 2,978 attacks, of which 745 succumbed. The departmental staff conducted 45,826 preventive inoculations and vaccinations against all the above diseases except Foot and Mouth disease. In the absence of a reliable method of vaccinatory intervention other prophylactic measures were adopt d against Foot and Mouth disease.

Three outbreaks of Rinderpest among sheep were registered in Bagepalli and Sorab Taluks accounting for 14 attacks among cattle and 51 attacks among sheep, of which 4 cattle and 41 sheep succumbed. Prompt measures of control were undertaken by the Department to check its spread and 2,341 cattle and 315 sheep and goats in infected villages and 1,026 cattle in 5 neighbouring villages were protected against this disease. The disease appeared to be well under control at the end of the month under report.

Diseases caused by internal parasites were reported from 78 villages accounting for 13 deaths as against 95 villages accounting for 7 deaths during the previous month. The special staff attached to the parasitic disease control units of the Department dosed 6,344 animals, as against 6,385 animals during the previous month.

The rest of the live-stock remained free from diseases during the month, and fodder and water were generally available throughout the State.

(HEALTH OF LIVE-STOCK DURING NOVEMBER 1951.)

Notification dated 14th December 1951.

In their order of severity, outbreaks of Rinderpest, Blackquarter, Ranikhet, Anthrax, Foot and Mouth, Hæmorrhagic-septicæmia, Sheep-pox, and Contagious-goat pleuro-pneumonia, were encountered in the State during November 1951. Altogether 253 villages were reported to have been affected by one or the other of the several contagious and infectious diseases, as against 279 villages during the previous month. The number of outbreaks was highest in Kolar, Tumkur and Chitaldrug Districts, while Hassan, Mandya and Chikmagalur Districts were least affected. These diseases accounted for 1,331 attacks, of which 1,097 succumbed. The departmental staff conducted 45,068 preventive inoculations and vaccinations against all the above diseases except Foot and Mouth disease. In the absence of a reliable method of vaccinatory intervention other prophylactic measures were adopted against Foot and Mouth disease.

Two outbreaks of Rinderpest of which one was among sheep were registered in Davangere and Tarikere Taluks accounting for 2 attacks among cattle and 28 attacks among sheep, of which 2 cattle and 12 sheep succumbed. Prompt measures of control were undertaken by the Department to check its spread and 3,265 cattle and 1,876 sheep and goats in the infected villages and 4,537 cattle and 21 sheep and goats in 18 neighbouring villages were protected against this disease. The disease appeared to be well under control at the end of the month under report.

Diseases caused by internal parasites were reported from 103 villages accounting for 14 deaths, as against 78 villages accounting for 13 deaths during the previous month. The special staff attached to the parasitic disease control units of the Department dosed 7,667 animals, as against 6,344 animals during the previous month.

The rest of the live-stock remained free from diseases during the month, and fodder and water were generally available throughout the State.

PUBLIC ADVERTISEMENTS

OFFICE OF THE PRINCIPAL INFORMATION OFFICER TO THE GOVERNMENT OF MYSORE, OLD PUBLIC OFFICES, BANGALORE.

Press Note.

Government have withdrawn with immediate effect the ban on the export of chillies from any place within the State to any place outside the State ordered in their Notification No. S.D. 4083—C. 77-49-2, dated 21st November 1949.

In effect, chillies may be exported from the State without any permit or restriction.

(P. N. No. 219—D. 20-12-1950).

Press Note.

In view of the improvement of the stock position of cement in the State, the Controller of Civil Supplies in Mysore had notified that the Cement Control Order in the State would be relaxed and that licensed dealers throughout the State could sell cement to *bona fide* consumers within their jurisdiction up to one ton during a month without a permit, for a period of two months from 1st December 1950.

There has been a further improvement since then and larger supplies of cement are available for civilian use, especially in Bangalore City, Civil Station and Mysore City. Accordingly therefore the Controller of Civil Supplies has notified for the information of the residents of Bangalore City, Civil Station and Mysore City that in view of the regular supplies of cement from Bhadravathi and Madhukarai, and in order to give every facility to the consuming public at these three places, the licensed dealers of these localities have been instructed to sell cement to *bona fide* consumers within their jurisdiction up to two tons during a month, without a permit as a tentative measure up to 15th February 1951.

The quantity of cement to be so sold without a permit has been restricted to 50 per cent of the stocks received by the cement dealers. Out of the remaining 50 per cent, 25 per cent will be operated upon by the Revenue Authorities and the balance 25 per cent by the Controller of Civil Supplies. If the quantity of cement reserved to be operated upon by the Revenue Authorities is not cleared during the month, the same will be sold freely without permits by the stockists during the next month.

The consumers in these localities may therefore approach the cement dealers within their areas for their cement requirements, up to 15th February 1951, if their requirement per month does not exceed two tons.

In respect of quantities exceeding two tons, the existing procedure will be continued.

(P. N. No. 220—D. 21-12-1950.)

Press Note.

WORK OF THE ANIMAL HUSBANDRY DEPARTMENT FOR THE FORTNIGHT ENDING WITH 30TH NOVEMBER 1950.

No fresh outbreaks of Rinderpest were encountered in the State during the fortnight under review. Nevertheless, the staff of the Department protected 5,762 cattle and 1,874 sheep and goats in the villages where the epidemic threatened to manifest itself. The preventive measures are continued to be enforced.

Hatching eggs from different breeds of pedigreed poultry (English strains) were flown out to Bangalore from England through the good offices of Mr. A. M. Webb of Coorg. The eggs are in hatch and the results are being carefully watched. The chicks when hatched out are expected to help the building up of a good foundation stock of poultry in the State.

Mr. A. M. Webb of Coorg also brought by plane some semen from highly pedigreed Aryshire and Jersey stud bulls in U. K. for purposes of artificial insemination of cows here. The Aryshire semen had lost its usefulness through an accident during flight, but the Jersey semen was artificially inseminated to two cows on heat at Bangalore and the results are watched with interest, this being the first time that such an ambitious programme has been tried in this country.

Seventy-two day-old chicks each of Barred Plymouth Rock and Babcock strains of American white leg-horns, were also obtained from the American Mission Poultry Farm at Kirkee and are being carefully reared with a view to improving the foundation stocks of the Central Poultry Farm at Hessarghatta Grass Farm.

The surplus stocks of ponies, sheep, poultry and goats at Hessarghatta were sold by public auction at Bangalore after wide publicity on the 29th and 30th November 1950.

At the two Artificial Insemination Centres in Bangalore and Mysore, 116 cows were bred.

(P. N. No. 222—D. 22-12-1950).

Press Note.

In the Press Note dated 22nd March 1950, it was pointed out that the opening of new District Board or Municipal or private High Schools without the previous sanction of Government will be at the risk of the institution concerned

and that Government do not bind themselves at any time to sanction any grant-in-aid to them. It was also stated that there is no objection to recognise such High Schools for academical purposes provided the required standards are maintained and provided also that no grants are asked for.

It has been brought to the notice of Government that some of the District Boards have opened High Schools this year without obtaining previous permission from Government. But previous sanction of Government is absolutely necessary for incurring heavy recurring and non-recurring expenditure from the funds of the District Boards in connection with the opening of such High Schools. If High Schools are opened in future by the District Boards or Municipalities without the previous sanction of Government, the sponsors of such schools will be made responsible for the payment of full cost thereof and the Government will neither pay any grant nor permit the District Boards or Municipalities to pay the recurring and non-recurring expenditure therefor.

(P. N. No. 223—22-12-1950.)

Press Note.

The Election Commission, India, have extended the period for the filing of claims and objections to the Electoral Rolls to 16th January 1951 in all the Electoral Units of the State except in respect of the Sub-Divisions of Pandavapura, Mandya, Chikmagalur, Kolar and Tumkur. SUGAR POSITION IN THE STATE.

Requests for additional issues of sugar in connection with special occasions or festivals continue to be received in large numbers, notwithstanding the appeal made to the public through the Press Note dated 21st August 1950 to desist from making such requests, in view of the existing difficult sugar position in the State. The position has not improved due to various reasons and it is found impossible to meet even the requirements of regular rationing with depleted and inadequate stocks of sugar in the State.

In these circumstances, the public are requested once again to appreciate the above position and refrain from asking for additional supplies of sugar on any account.

DEPOSITS FOR POWER SUPPLY TO CONSUMERS.

It has been represented to Government that deposit equivalent to two years revenue that is being collected from the prospective consumers of power supply is causing a very great hardship on the consumers. The following is issued for general information in order to clear the position.

The deposit equivalent to 2 years revenue required to be deposited with the Electrical Department by prospective consumers of power supply is intended to protect Government from loss of revenue; in case where the consumers feel unable to continue power supply for the agreed period of 5 years according to the terms of agreements entered into by them. In these days of changing trade conditions it is considered necessary that Government should have some measure of protection from loss. It is well known that the Electrical Department has to spend quite a good amount of capital before turning on service to any prospective consumer and the Department being run on commercial lines, it is inevitable that it should adopt measures to protect itself from loss. Therefore, the recovery of deposit is considered essential. With regard to the payment of deposit itself, the consumers are not required to pay the same in cash. The rules provide that the amount of deposits may be paid in the shape of fixed deposits on Co-operative Societies, or Banks or Savings Banks Accounts which yield interest on the deposits. It is thus clear that the deposits are not idle but are earning interest at the current rates to the depositor.

Under the circumstances, the procedure adopted regarding the recovery of deposit is equitable to both sides and there can be no reasonable cause for any grievance.

Press Note.

The question of speeding up of the disposal of the several suggestions and instructions contained in the tour notes issued from time to time was engaging the attention of the Minister for Law and Labour for some time past. With a view to achieving this object, he thought it necessary to meet all the local officers and confer with them.

One such meeting was held in the Deputy Commissioner's chambers at Mysore on the afternoon of the 12th January 1951 under the chairmanship of the Hon'ble Sri K. T. Bhashyam, Minister for Law and Labour. All the local officers of the several departments were present. Sri H. M. Chennabasappa, President, District Board, Sri M. L. Nanjaraj Urs, President, District Congress Committee, and the General Manager, Mysore State Railway, were also present on special invitation. The Deputy Commissioner first explained to those present the object of this meeting and reviewed the progress so far achieved in this direction. He explained that out of the 295 items referred to in the tour notes of the Hon'ble Minister for Law and Labour issued between November 1948 and October 1950, as many as 216 subjects have been disposed of, leaving a balance of 79 subjects for disposal which related to the several departments like the Revenue, Public Works Electrical, Industries and Commerce, Education, Judicial, Medical and Public Health and the like, and that he would deal with the tour notes of the Minister for the month of November 1950, which were received recently by contacting the several officers. The Hon'ble Minister then addressed these officers and invited their co-operation in speeding up the disposal and advised them to keep in touch with the Deputy Commissioner from time to time. He then took up the subjects individually and discussed with the concerned officers, giving suitable suggestions in every case with a view to its expeditious disposal.

The meeting lasted for nearly two hours.

The deposit of the successful tenderer will be retained and forfeited to Government, if he fails to complete the contract by executing the necessary agreement and furnishing a security of Rs. 1,500 within a week, from the date of receiving information regarding the acceptance of his tender. The earnest deposit of the unsuccessful tenderer will be returned on application being made by him to that effect.

12. The quantities noted in the list are only approximate and the successful tenderer will be required to supply more or less according to the actual requirements.

13. All articles except when mentioned otherwise should be of the first sort, fit to be used without extra labour or waste and should be delivered at the premises of the Receiving and Relief Centres free from all charges on receiving indents therefor.

14. Any articles rejected on account of inferiority should be promptly replaced by articles of required quality; otherwise they will be purchased by the authorities of the Receiving and Relief Centres from outside and charges therefor recovered from the contractor.

15. The articles supplied should be guaranteed free from adulteration and any articles found unfit for use for any reason should, on rejection, be removed by the contractor.

16. When articles are called for, some may be rejected without assigning any reason, while accepting all the rest at the same time.

17. In respect of controlled articles such as rice, fuel, sugar, kerosene oil, etc., the contractor should obtain ration cards or permits, as the case may be, from the concerned authorities and should maintain necessary stock and other accounts therefor and furnish them to the authorities as and when required.

18. When a store room is made available to the contractor, he is found to keep in stock one month's supply of all storable articles, perishable articles such as vegetables meat, etc., being brought and supplied daily before 7-30 A.M.

19. The contractor is bound, on occasions of emergency, to supply any other articles that are not mentioned in the list at short notice and they will be regarded as non-tendered and only prevailing market rates allowed on production of cash receipts for having purchased them.

20. Notwithstanding what has been stated above the authorities of the Receiving and Relief Centres always reserve the right to make their own arrangements for procuring any of the articles without reference to the contractor, if that course is found to be better economically or otherwise.

21. No advance of cash will be given to the contractor for any supply. But payment for each month's supply will be made as soon as possible after the 15th of the following month on the production of necessary bills with vouchers, the basis being in the case of diet articles, the totals of diet sheets and in the case of other articles, the indents received for them.

22. The contract must not be sublet.

23. A fine not exceeding Rs. 15 at a time will be levied by the Superintendent in charge of the Receiving and Relief Centres or any other officer authorised by the Chairman of the Committee in this behalf for infringement of the terms of the contract or for the supply of inferior articles and the contract itself will be annulled and the security amount forfeited to the Government in the case of continued or frequent violation of the terms of contract, the defaulter being further liable to make good any loss that may result to the Receiving and Relief Centres by such annulment. If the contractor thinks that the fine levied in any case is not justifiable, he may prefer an appeal to the Chairman of the Committee whose orders will be final.

24. If the contractor ceases to abide by the terms of the contract at any time during the currency thereof, he shall forfeit the security amount to the Government and shall further be bound to make good any loss that may arise from such cessation.

Re: PERMITTING CANDIDATES TO APPEAR FOR ENGLISH ONLY BY PRIVATE STUDY AT THE MYSORE S.S.L.C. EXAMINATION.

A local Kannada Daily Newspaper has published during November 1950 an item of news stating that orders have been passed permitting candidates who have passed the Mysore V.T.C. Examination in full to appear for the Mysore S.S.L.C. Examination of 1951 in English only by private study. It has been ascertained that no orders whatsoever have been passed by the Director of Public Instruction in the matter. As per rules, only persons who have passed the Mysore Pandit or Munshi Examination in full are permitted to appear for English only by private study. Candidates are therefore informed that there is no basis for the article published in the local newspaper and that candidates who have passed the V.T.C Examination in full are not permitted to appear for English only at the Mysore S.S.L.C Examination of 1951 by private study.

MISCELLANEOUS DEPARTMENT.

OFFICE OF THE COMPILER, *MYSORE GAZETTE.*

NOTICE.

1. The *Mysore Gazette* is published at Bangalore every Thursday. Matter for publication in the Gazette is often sent late to the Press. This involves considerable inconvenience to the Press and expense to Government. All matters intended for publication in Parts I, II, III, IV, V and VI should therefore reach this office not later than *Monday Evening*, and that for Part II not later than *Tuesday Evening* for the following Thursday's issue of the Gazette. All matters received later than these days will be kept by for insertion in the following issue of the Gazette. (G. O. No. P. 988-1040—P. & S. 12-30-2, dated 26th July 1930.)

2. (i) Spare copies of notifications, etc., are often asked for long after their publication, when the matter has been broken up, necessitating its re-setting and thereby causing inconvenience to the Press and waste of money. When spare copies are wanted, a note to that effect stating the number of copies should be made at foot of such manuscript.

(ii) Indents for less than 100 spare copies should not be sent to the Press, subject to the exceptions contained in G. O. No. G. 14330-95—P. & S. 5-19-9, dated 23rd December 1919, in regard to notices calling for tenders for the purchase of stores or for the execution of works. When a few copies only are required, they may be made available by the use of carbon sheets simultaneously with the preparation of a copy for the Gazette, as laid down in the above Government Order. (Letter No. G. 10382—P. & S. 9-37-2, dated 30th June 1938, received from the Secretary to Government, Development Department.)

(iii) When indents for an unusually large number of spare copies are sent, such instances will be brought to the notice of Government, as per letter No. G. 10382—P. & S. 99-37-2, dated 30th June 1938, received from the Secretary to Government, Development Department.

3. Matter sent for insertion in the Gazette will be published *only once* and the abstract in two issues. (G. O. No. G. 2915-6—P. & S. 44-25-2, dated 13th September 1926).

4. Applications for the supply of the Gazette on *Public Service* should be made to the Chief Secretary to the Government of Mysore.

5. As per G. O. No. E. 1892-1902—P. & S. 12-23-13, dated 8th December 1923, and G. O. No. 5139-95—P. & S. 52-30-1, dated 12th November 1930, the English or the Kanarese portion of the *Mysore Gazette*, consisting only of the five Parts, *viz.*, I, II, III Section 1, III Section 3, IV and V taken together or an entire copy of the English or Kanarese Gazette containing all the parts will be supplied only to Patels, Nad-Patels, Shanbhogs and Sheikdars within the State at *half* rates on production of a certificate from the Amildar of the taluk to the effect that such applicant is *bona fide* on duty at the time or that he is on leave for a period

No money orders or cash will be received by the undersigned except from parties outside the State.

In their order of severity, outbreaks of Rinderpest, Blackquarter, Anthrax, Hæmorrhagic septicæmia, Foot and Mouth, Contagious goat pleuro-pneumonia, Ranikhet, Sheep-pox, and Rabies were encountered in the State during December 1950. Altogether 134 villages were reported to have been affected by one or the other of the several contagious and infectious diseases, as against 217 villages during the previous month. The number of outbreaks was highest in Mysore, Kolar and Bangalore Districts, while Chikmagalur, Shimoga and Hassan, Districts were least affected. The departmental staff conducted 17,151 preventive inoculations and vaccinations against all the above diseases except Foot and Mouth disease. In the absence of a reliable method of vaccinatory intervention, other prophylactic measures were adopted against Foot and Mouth disease.

Prevalence of Rinderpest among cattle, sheep and goats was reported from Channagiri and Holalkere taluks accounting for 79 attacks, of which 76 succumbed. Prompt measures of control were undertaken by the Department to check its spread and 92 cattle and 124 sheep and goats in the infected villages and 2,254 cattle and 558 sheep and goats in the six neighbouring villages extending over a radius of three miles, were protected against the disease. The disease appeared to be well under control at the end of the month under report.

Prevalence of an obscure disease characterised by Gastro-Enteritis among cattle and buffaloes in Hassan and Chikmagalur Districts was reported during the month. The research staff of the department who were promptly deputed to investigate its occurrence protected 539 animals during the month in these districts against the disease.

Diseases caused by internal parasites were reported from 92 villages resulting in 68 deaths, as against 93 villages accounting for 62 deaths during the previous month. The special staff attached to the parasitic disease control units of the department dosed 5,781 animals as against 4,162 animals during the previous month.

The rest of the livestock remained free from diseases during the month, and fodder and water were generally available throughout the State.

Press Note.

REVISION OF SCALES OF RATIONS AND THE SALE PRICES OF FOODGRAINS.

The present scale of rations is as noted below:—

	Rice	Wheat	Millets	Total
	(Ounces per head per day)			
(i) "A" Class	5.5	4.0	...	9.5
(ii) "B" Class	2.4	3.8	5.8	12.0
(iii) Heavy Manual Labour ...	2.4	3.8	8.8	15.0
(iv) Plantation do ...	5.5	2.0	4.5	12.0
(v) Staple Wheat Eaters ...	...	9.5	...	9.5

In view of the anticipated deficit in food stocks due to various causes, the Ministry of Food, Government of India, directed that the scale of over-all rations may be reduced to 9 ozs., heavy manual labour alone being allowed an extra 4 ozs. In view of the fact that the "B" Class card-holders in the State belong mostly to labour class who will not come under the category of the heavy manual labour, the Government of India having regard to the conditions of this class of rationed population in the State, have very kindly consented to allow them, as a special case, an over-all ration of 10 ozs., the ration with regard to the "A" Class card-holders and staple wheat-eaters being limited to the over-all scale of nine ozs. The revised scale of rations that will be allowed, issued, with effect from 12th February 1951, is noted below:—

	Rice	Wheat	Millets	Total
	(Ounces per head per day)			
"A" Class	5.5	3.5	...	9.0
"B" Class	2.4	1.0	6.6	10.0
Heavy Manal Labour ...	2.4	1.0	9.6	13.0
Plantation Labour ...	5.5	1.0	2.5	9.0
Staple Wheat Eaters ...	...	9.0	...	9.0

(Children below eight years of age will be allowed half the above scale of rations).

Mysore is the only State in India which has been subsidising the sale of locally procured foodgrains in addition to bearing subsidy on imported foodgrains. The entire sabsidy was being borne by the State till October 1948. Thereafter the Government of India were pleased to share 50 per cent of the subsidy on imported foodgrains till financial integration in April 1950 when the subsidy was increased to 75 per cent as in the case of other Part "A" States. This subsidy is in addition to the charges on the administration of the Food Supplies Department which alone works at the rate of about Rs. 30 lakhs per annum. The subsidy on foodgrains alone in 1948-49 and 1949-50, excluding the cost of administration of the Food Department, amounted to Rs. 1,50,61,703 and Rs. 1,26,00,000, respectively. So far, the State has sustained loss to the extent of about Rs. 8,50,00,000 in the shape of subsidy and the administration charges of the Food Department; and in the present financial position it is no longer possible for this Government to bear these losses from General Revenues. The neighbouring States have not been incurring any such losses and the prices of foodgrains are fixed on the principle of "Service at Cost", including the cost of administration charges. The selling prices of foodgrains therefore in the neighbouring States have always been higher than those prevailing in the State. It is against this background that this Government, with the concurrence of the Government of India, revised the issue prices of foodgrains as follows, with effect from 1st August 1950, the revision of prices being confined only to rice and millets:—

Rice ...	I Variety ...	2¼ seers per Rupee	
Do ...	II do ...	2⅜ do	do
Millets ...	... ...	4¾ do	do

Even these prices were substantially lower and they compare very favourably with the corresponding prices in the nighbouring States.

The position has considerably worsened since. The financial position, on the one hand, and the reduction in subsidy from the Centre due to a revision of their policy, on the other necessitate a further slight rise in the issue prices. This position was brought out prominently during the recent food debate in the Legislative Assembly. The House was definitely of opinion that the food operations in the State should be carried on on the basis of "Service at Cost". It has, therefore, been decided to enhance slightly the retail issue prices of foodgrains as follows:—

(1) Rice: I Variety	...	2 seers per Rupee	
(2) Do II do	...	2 3/8 do	do
(3) Milo and Millets	...	4¼ do	do
(4) Wheat ...	...	Re. 0-6-8 per seer	

The above prices fixed are not only within the ceiling prices allowed by the Government of India for Mysore and Bangalore Cities but also compare favourably with the prevailing prices in the neighbouring States of Bombay and Madras and most other States in India.

Press Note.

Committees for the Amritmahal and Hallikar Breeds of Mysore Cattle.

Dr. P. M. Narainswamy Naidu, B.Sc., L.V.P., D.Sc., F.F.A.S., Director of Animal Husbandry Services in Mysore, convened the meetings of the Committees for the Amritmahal and Hallikar cattle at the Hessarghatta Travellers' Bungalow on Sunday, the 28th January 1951. The meetings were attended by six non-official members including Sriyuts K. M. Krishnappa Gowda, M. V. Krishnappa, B. Huche Gowda, Solur Siddappa, Y. M. Chandrasekhariah, M. G. Boriah and two official members. Sri A. Bhimappa Naik, B.A., B.L., was also present at the meeting by invitation.

The Committees which were set up by Government at the request of the Indian Council of Agricultural Research, discussed the distinctive characters of these two important breeds of Mysore cattle and were of opinion that registration of these breeds by initiating herd books was a necessary preliminary in the long range programme of their development and that the Indian Council of Agricultural Research may be requested to give the State a grant-in-aid to enable the Committees to define the breeds in greater detail.

The Committees studied a few specimens of Hallikar and Amritmahal cattle and their photographs which were produced by the Department, at the above meetings.

Press Note.

The attention of Government has been drawn to the editorials appearing in two local Dailies, dated 5th February 1951, wherein it is apprehended that Government have resiled from their declared policy of nationalising Road Transport Services in the State. This apprehension appears to have as its basis a reply given to a question (Starred Question No. 105 by Sri A. Bheemappa Naik) put during the recent session of the Legislative Assembly as to " whether they (the Government) have thought of associating any non-official agency to manage the transport work". The reply to this was that "it is under consideration". It is unfortunate that this reply should have been misinterpreted to mean that Government had modified their attitude towards nationalisation of Road Transport Services. That such a construction is quite untenable would be evident if the replies given to questions No. 5 by Sri K. H. Mudiappa, (Chikmagalur District—General) and No. 125 by Sri M. Hutche Gowda, (Chikmagalur District—General), are considered. The latter question clearly posed the issue as to whether Government " had any idea of giving out the existing nationalised services ..... to any individual or corporate body ". The reply to this question and to the other question, Question No. 5, which raised the same issue was in the negative. Hence, it is incomprehensible as to how doubts came to be entertained about the fundamental attitude of Government in this matter.

Government wish to make it clear that their delared policy in regard to nationalisation of Road Transport Services in the State stands unmodified. All that was sought to be conveyed in the reply to Question No. 105 by Sri A. Bheemappa Naik, was that Government were considering the association of a few non-official gentlemen in a purely advisory capacity in the management of the Road Transport Department.

Government wish further to take this opportunity of giving the assurance that every necessary step will be taken to ensure the efficient working of the Road Transport Department, especially from the point of view of the travelling public.

In their order of severity, outbreaks of Rinderpest, Blackquarter, Anthrax, Sheep-pox, Foot and Mouth, Hæmorrhagic-Septicæmia, Rabies, Contagious Goat Pleuropneumonia and Ranikhet were encountered in the State during January 1951. Altogether 161 villages were reported to have been affected by one or the other of the several contagious and infectious diseases, as against 134 villages during the previous month. The number of outbreaks was highest in Kolar, Mysore and Tumkur Districts, while Chikmagalur, Hassan and Shimoga Districts were least affected. These diseases accounted for 1,053 attacks, of which 712 succumbed, as against 688 attacks and 440 deaths during the previous month. The departmental staff conducted 16,120 preventive inoculations and vaccinations against all the above diseases except Foot and Mouth disease. In the absence of a reliable method of vaccinatory intervention other prophylactic measures were adopted against Foot and Mouth diseases.

As many as 11 outbreaks of Rinderpest of which 4 were among sheep and goats were registered in Heggaddevankote, Kadur, Davangere, Holalkere and Honnali Taluks accounting for 46 attacks among cattle and 386 attacks among sheep and goats, of which 25 cattle and 364 sheep and goats succumbed. Prompt measures of control were undertaken by the department to check its spread and 3,466 cattle and 1,117 sheep and goats in the infected villages and 1,615 cattle and 423 sheep and goats in the 7 neighbouring villages extending over a radius of three miles were protected against the disease. The disease appeared to be well under control at the end of the month under report.

Prevalence of an obscure disease characterised by Gastroentritis among cattle and buffaloes in Hassan and Chikmagalur Districts was reported during the month.

258

The staff of the department have protected 291 animals during the month in these districts against the disease.

Diseases caused by internal parasites were reported from 118 villages resulting in 49 deaths, as against 92 villages accounting for 62 deaths during the previous month. The special staff attached to the parasitic disease control units of the department dosed 8,344 animals as against 5,781 animals during the previous month.

The rest of the live-stock remained free from diseases during the month and fodder and water were generally available throughout the State.

During the period under review, the 37th Mysore Provincial Co-operative Conference was held at Mysore on the 30th and 31st of December 1950 under the auspices of the Mysore Provincial Co-operative Institute. Sri K. L. Panjabi, I.C.S., Secretary to the Government of India, Ministry of Agriculture, New Delhi, presided over the deliberations of the Conference while the Honourable the Home Minister, Government of Mysore, Bangalore, inaugurated it. Various subjects calculated to the advancement of the Co-operative Movement in the State were discussed.

The Mysore Provincial Silk Handloom Weavers' Co-operative Society, Ltd., Bangalore, is becoming increasingly popular among the silk handloom weavers at Bangalore. A nine-month old dispute between the Management and the Workers of the concern known as the Amco Factory at Bangalore was settled by the Hon. Minister for Labour, Sri K. T. Bhashyam Iyengar, yesterday. The dispute arose from the closure of four Sections of the concern by the Management from 1st May 1950. The Labour Department's efforts to see that the played-off workers were recalled and back wages were paid by the Management not having yielded satisfactory results, the Hon. Minister met the representatives of both sides more than once and effected a compromise yesterday and an agreement was executed between the parties. The workers accepted, for the full period in question, only 5 months' salaries or wages *plus* Dearness Allowance, of which one month's payment has already been made. Two months' dues will be paid within a week and the balance in not more than two monthly instalments in addition to the payment due for the next two months. The workers promised to return to works immediately but a week's margin was allowed in the case of those who for any reason might not be able to join forthwith. The Management assured the workers that there will be no victimization and the workers reciprocated by promising full production. The Agreement will not in any way prejudice either the Management's contribution to the Employees' Provident Fund accounts or the implementation of the Award passed by the Court of Arbitration in March last.

The best agreement possible in the circumstances having thus been reached, and the workers also having resumed work this morning, it is hoped that substantial improvement will result not only in the relations between the Management and the workers but also in production which is the paramount need of the hour.

No Change in the Existing System of Meter reading.

The attention of Government is drawn to an article in a local newspaper, dated 4th December 1950, stating that inconveniences are being experienced by Government servants for payment of lighting charges during the last week of every month and it has been suggested that some arrangements should be made by which the dates of payment in respect of installations of Government servants fall during the first week of the month so that they may arrange to pay the bills when they are in a position to do so.

In this connection, Government desire to inform the public that the system of meter reading in Bangalore City and Civil Area is a system of daily meter reading from the 1st to 25th of every month. Two days are allowed for preparation of the bill and thereafter 15 days' time for the consumer to pay the bill. So, the due dates of payment of bills fall between the 18th of each month to about 11th or 12th of the subsequent month. The difficulty referred to is only in respect of certain consumers whose due dates fall between the 18th and the end of the month, and therefore the inconvenience referred to is not a question of general disability.

At this stage, it would be necessary to indicate how meter readings are arranged to be taken. The meter readings have been so arranged as to enable the Meter Inspector to visit one or two streets every morning and take the meter reading on a particular date. Thus it will be seen that the taking of readings and making out bills for power consumed is localitywar. If Government servants are to be given the concession referred to, the localitywar meter readings will have to be completely upset and Meter Inspectors will have to go from place to place. The number of Meter Inspectors required for accomplishing this will have to be increased sufficiently to make up for the loss of time in moving from one meter to the other which may be far apart. Further it is also a well-known fact that people change their houses very frequently, and if the meter of a particular Government servant has to be read on a particular date, it will have to be kept changing whenever such alterations of residences take place. The inconvenience and confusion that will be caused by such a change needs no mention. Therefore, it would be clear that the present practice of reading the meters localitywar is the most convenient and economical one; and hence it has been adopted and has been working satisfactorily. Further, the consumers, if they so choose, may pay the bills in advance, thus eliminating the difficulty referred to.

Under the circumstances it is hereby notified for the general information of the public that no change in the existing system of meter reading or the sending of bills or the due dates of payment is called for.

A Brief Note on the Work of Animal Husbandry Department for the Fortnight ended 31st January 1951.

Prevalence of Rinderpest among cattle, sheep and goats was reported from Heggaddevankote, Kadur, Davangere, Holalkere and Honnali Taluks during the fortnight. Altogether 11 outbreaks have been registered during this period and out of 46 cattle and 386 sheep and goats that were affected, 25 cattle and 364 sheep and goats died of the disease. The staff of the Department have protected 3,466 cattle and 1,117 sheep and goats in the infected villages and 1,118 cattle and 386 sheep and goats in six neighbouring villages during the period. The disease appears to be flaring up again as a result of holding the cattle fairs which are providing opportunities for the infection to disseminate and unless some restraint is enforced in the matter of holding these fairs, at this juncture, there is every indication of the disease spreading rapidly throughout the State. Nevertheless, preventive measures are continued to be undertaken by the Staff of the Department.

The Committees constituted by Government at the instance of the Indian Council of Agricultural Research to determine the breed characteristics of Hallikar and Amrit Mahal cattle met at Hessarghatta Travellers' Bungalow on 28th January 1951 under the Presidentship of the Director of Animal Husbandry Services in Mysore. This opportunity was availed of to take the members of the Committees round the Hessarghatta Grass and Stud Farm, where they were acquainted with the various activities of this Department on the Farm and the details of the Composite Scheme the implementation of which is under consideration of Government.

A meeting of the Aided Cattle Breeders in the State was also held at Hessarghatta on 29th January 1951 to discuss measures for extending the scheme and to eliminate the present shortcomings. The Director of Animal Husbandry Services in Mysore, Sriyuts A. Bheemappa Naik, B.A., LL.B., M.L.A., and Sri B. Huche Gowda, M.L.A., were also present at the meeting on special invitation and offered their suggestions in drawing up revised proposals for continuing the Aided Cattle Breeders Scheme in the State.

The aided cattle breeders and others who attended the meeting were also taken round the Hessarghatta Grass and Stud Farm where they were acquainted with the activities of the Farm.

110 cows were bred at the two Artificial Insemination Centres in Bangalore and Mysore.

Tractor demonstrations were given by Messrs. Fergusson Tractors Co, Ltd., at Hessarghatta and at the Cattle Breeding Station, Ajjampur during the fortnight.

GOVERNMENT OF INDIA.

MINISTRY OF INDUSTRY AND SUPPLY.

New Delhi, the 23rd January 1950.

OFFICE MEMORANDUM.

Subject:—List of Controlling Officers and the Stores dealt with by them.

The undersigned is directed to refer to this Ministry's Office Memo No. P. 71 (3), dated the 1st October 1946 (copy enclosed), regarding clearance, distribution and recoveries in respect of stores imported from overseas. An up-to-date list of the Controlling Officers showing also the main categories of stores controlled by each of them is forwarded herewith, for information. This list supersedes the list of Controlling Officers given at Appendix I in the Memorandum on the working of the Shipping Organisation.

2. As regards the functions of the Controlling Officers, referred to in para 3 of the Memorandum of the Shipping Organisation (copy enclosed for ready reference), it may be stated that in respect of indents placed on the Directorate-General of Industries and Supplies, which are transferred to the Director-General, India Store Department, London and/or India Supply Mission, Washington, etc., the Directors of Supplies (in the Directorate-General of Industries and Supplies) are mainly responsible for their scrutiny and for recovering the cost of stores *plus* departmental charges, etc., from the private indentors, *e.g.*, Local Bodies, Port Trusts, etc. The following procedure will, however, be followed in respect of reception of imported stores, their clearance from docks and their subsequent despatch to the ultimate consignee in this country and preferring of claims on Steamer Agents for losses and short receipts:—

(*a*) in respect of stores which are cleared by the indentors or consignees themselves as in the case of Railway Stores, Fertilisers, etc., the Directors/Deputy Directors of Supplies at the ports will merely endorse the documents and deliver them to consignees' Clearing Agents. Clearance and their despatch, etc., will then be the responsibility of the latter.

(*b*) In case of stores which are entrusted to the Government Clearing Agents working with the Directors/Deputy Directors of Supplies at the ports, the latter will intimate to the consignees full details of stores damaged or short-received together with Survey Reports and short-landing certificates, so that the consignees will be in a position to prefer a claim on the Steamer Agents, wherever necessary.

In both the above cases, however, the Directors/Deputy Directors of Supplies at the ports will render all assistance to the consignees, as and when desired, in respect of clearance, despatch and settling of claims with the Steamer Agents, etc.

S. A. R. CHARY,
Asst. Secy. to the Govt. of India.

Copy of Office Memorandum No. P-71 (3), dated the 1st October 1946, from the Department of Industries and Supplies, New Delhi, to the Director-General of Industries and Supplies, and all Departments of the Government of India, copy endorsed to Finance Department (Industries and Supplies), etc., etc.

In supersession of the instructions contained in the late Department of Supply Memoranda No. A.P. III-4 (19), dated the 26th July 1943 and 24th February 1944 (as amended from time to time), it has been decided by the Government of India, that the system of disposal orders will be discontinued with effect from the 1st October 1946.

2 Simple instructions in the attached form for the clearance of goods orders by and consigned to the Industries and Supplies Department and their despatch to ultimate consignees in India will be received by the Directors/Deputy Directors of Supplies at ports from the Controlling Officers, normally through the Shipping Section of the Directorate-General, Industries and Supplies, at New Delhi. Controlling Officers in Calcutta will send their instructions to the Directors/Deputy Directors at ports through the Shipping Section at Calcutta. Whenever instructions are issued by telegrams or express letters, these should invariably be followed by instructions in the attached form.

3 The Directors/Deputy Directors of Supplies will continue as at present —

(1) to maintain a record of the receipt and despatch of all incoming cargoes handled by them, and

(2) to obtain acknowledgments of consignees and to forward such acknowledgments to the Local Audit Officers or Accounts Officer of the consignees. The submission of reports to the C. A. O. (A.P.) and the Shipping Section of the D. G. I. & S. (Forms D. and E.) is no longer necessary and should be discontinued. The port records should however be made available for audit, if and when required.

4 In the case of stores despatched to Government consignees, necessary recoveries of the cost, etc., will be made by book transfer by C.A.O. (A.P.)/C.S.A., but in the case of goods despatched to non-Government consignees, the responsibility for making recoveries of the cost, ocean freight, other incidental expenditure, departmental charges, etc., will now rest with the Controlling Officer concerned and not with the Accounts Officer as heretofore. In such cases the Controlling Officers will make full recoveries promptly and send the treasury receipts giving full particulars of the recovery to the C.A.O. (A.P.)/C.S.A., New Delhi.

5 The present procedure of pursuing claims for shortages, damages, etc., by Controlling Officers in direct consultation with the Directors/Deputy Directors of Supplies will remain unaffected.

6 Where no disposal orders have so far been issued in respect of stores cleared from the 1st April 1946 to the 30th September 1946, the Controlling Officers should furnish to the Deputy C. A. Os. (A. P.) consolidated statements in duplicate the same form as laid down in Directorate General, Industries and Supplies (Shipping Section) office memorandum No. Ship-46 (4), dated the 5th June 1946.

7 In the case of any L/L stores arriving after the 1st October 1946, the Controlling Officer will follow the same procedure as in para 6 above.

This list supersedes the list of Controlling Officers given at Appendix I in the Memorandum on the working of the Shipping Organisation.

2. As regards the functions of the Controlling Officers, referred to in para 3 of the Memorandum of the Shipping Organisation (copy enclosed for ready reference), it may be stated that in respect of indents placed on the Directorate-General of Industries and Supplies, which are transferred to the Director-General, India Store Department, London and/or India Supply Mission, Washington, etc., the Directors of Supplies (in the Directorate-General of Industries and Supplies) are mainly responsible for their scrutiny and for recovering the cost of stores *plus* departmental charges, etc., from the private indentors, *e.g.*, Local Bodies, Port Trusts, etc. The following procedure will, however, be followed in respect of reception of imported stores, their clearance from docks and their subsequent despatch to the ultimate consignee in this country and preferring of claims on Steamer Agents for losses and short receipts:—

(*a*) in respect of stores which are cleared by the indentors or consignees themselves as in the case of Railway Stores, Fertilisers, etc., the Directors/Deputy Directors of Supplies at the ports will merely endorse the documents and deliver them to consignees' Clearing Agents. Clearance and their despatch, etc., will then be the responsibility of the latter.

(*b*) In case of stores which are entrusted to the Government Clearing Agents working with the Directors/Deputy Directors of Supplies at the ports, the latter will intimate to the consignees full details of stores damaged or short-received together with Survey Reports and short-landing certificates, so that the consignees will be in a position to prefer a claim on the Steamer Agents, wherever necessary.

In both the above cases, however, the Directors/Deputy Directors of Supplies at the ports will render all assistance to the consignees, as and when desired, in respect of clearance, despatch and settling of claims with the Steamer Agents, etc.

S. A. R. CHARY,
Asst. Secy. to the Govt. of India.

Copy of Office Memorandum No. P-71 (3), dated the 1st October 1946, from the Department of Industries and Supplies, New Delhi, to the Director-General of Industries and Supplies, and all Departments of the Government of India, copy endorsed to Finance Department (Industries and Supplies), etc., etc.

In supersession of the instructions contained in the late Department of Supply Memoranda No. A.P. III-4 (19), dated the 26th July 1943 and 24th February 1944 (as amended from time to time), it has been decided by the Government of India that the system of disposal orders will be discontinued with effect from the 1st October 1946.

2 Simple instructions in the attached form for the clearance of goods orders by and consigned to the Industries and Supplies Department and their despatch to ultimate consignees in India will be received by the Directors/Deputy Directors of Supplies at ports from the Controlling Officers, normally through the Shipping Section of the Directorate-General, Industries and Supplies, at New Delhi. Controlling Officers in Calcutta will send their instructions to the Directors/Deputy Directors at ports through the Shipping Section at Calcutta. Whenever instructions are issued by telegrams or express letters, these should invariably be followed by instructions in the attached form.

3 The Directors/Deputy Directors of Supplies will continue as at present —

(1) to maintain a record of the receipt and despatch of all incoming cargoes handled by them, and

(2) to obtain acknowledgments of consignees and to forward such acknowledgments to the Local Audit Officers or Accounts Officer of the consignees. The submission of reports to the C. A. O., (A.P.) and the Shipping Section of the D. G. I. & S. (Forms D. and E.) is no longer necessary and should be discontinued. The port records should however be made available for audit, if and when required.

4 In the case of stores despatched to Government consignees, necessary recoveries of the cost, etc., will be made by book transfer by C.A.O. (A.P.)/C.S.A., but in the case of goods despatched to non-Government consignees, the responsibility for making recoveries of the cost, ocean freight, other incidental expenditure, departmental charges, etc., will now rest with the Controlling Officer concerned and not with the Accounts Officer as heretofore. In such cases the Controlling Officers will make full recoveries promptly and send the treasury receipts giving full particulars of the recovery to the C.A.O. (A.P.)/C.S.A., New Delhi.

5 The present procedure of pursuing claims for shortages, damages, etc., by Controlling Officers in direct consultation with the Directors/Deputy Directors of Supplies will remain unaffected.

6 Where no disposal orders have so far been issued in respect of stores cleared from the 1st April 1946 to the 30th September 1946, the Controlling Officers should furnish to the Deputy C. A. Os. (A. P.) consolidated statements in duplicate the same form as laid down in Directorate General, Industries and Supplies (Shipping Section) office memorandum No. Ship-46 (4), dated the 5th June 1946.

7 In the case of any L/L stores arriving after the 1st October 1946, the Controlling Officer will follow the same procedure as in para 6 above.

Letter No. 1 (2)-7 (20)—50, dated the 19th December 1950, from the Under Secretary to the Government of India, Ministry of Industry and Supply, New Delhi, to all State Governments/Unions/Chief Commissioners.

Subject:—Duplicators Industry—Encouragement to.

I am directed to say that the Government of India have for sometime been considering the policy to be adopted in the purchase of duplicators to meet their requirements. With a view to encouraging the indigenous industry the Government of India have decided as follows :—

(ii) Purchase of "hand driven and hand feed" duplicators should be made from indigenous manufacturers only, as the indigenous article is as good as the imported article.

I am to request that the State Governments/Unions/Chief Commissioners may also adopt a similar policy and extend their patronage to manufacturers in India, *viz* :—

(*a*) Messrs. Blackwoods (India) Ltd., Calcutta/Makers of hand and automatic feed duplicators.

(*b*) Messrs. Shourie Bros., Daryaganj, Delhi/Makers of duplographs and hand and automatic feed duplicators.

Press Note.

One of the important decisions taken at the All-India Food Conference held at Bombay, is to tighten up austerity measures with a view to overcoming the anticipated serious food shortage in the country as a result of the uncertainty of the international situation and the heavy loss of food production in the several Indian States brought about by natural calamities. In the words of our Prime Minister, not only the food in the country but also the lack of it has now to be shared by all on the principle of equal sacrifice.

The Ministry of Food and Agriculture, Government of India, have proposed certain austerity measures for being adopted by all States. The Mysore Food (Restriction of Service of Meals in Catering Establishments and others,) Order, of 1949, has been revised and re-issued as the Mysore Food (Austerity Measures in Service of Meals) Order, 1951, in Notification No. S. D. 8180—R. 24-50-273, dated 8th March 1951, incorporating all the relevent measures proposed by the Government of India. While making it clear that the austerity orders will be very strictly enforced, the attention of the public is drawn to the following provisions regarding Licensing of Catering Establishments, preparation of eatables made out of rationed articles and those regulating entertainment, feeding, etc.

"3. No catering establishment or bakery shall be opened or commenced except under and in accordance with the conditions of a licence i ssued by the Director of Food Supplies or any other Officer authorised by him in this behalf.

4. No catering establishment shall manufacture for sale or sell any article of food prepared using milk or rice, and no catering establishment shall prepare for sale or sell eatables known as "Idles" or "Dosais" or eatables of a similar kind *prepared using rice*;

Provided that nothing in this clause shall apply to:—

(i) the manufacture or sale of standard meal, or coffee or tea or cocoa, or sweet drink, or any other articles of food specifically exempted by the Director, in writing;

(ii) the manufacture for sale or sale of any article of food which involves the use of milk powder or canned milk.

5. (1) No person shall in connection with any marriage or funeral invite for taking cooked or prepared food, or serve or provide or supply cooked or prepared food using rationed articles, for more than fifty persons other than the persons shown on the Ration Cards of the persons performing the said marriage or funeral.

Explanation.—for the purpose of this sub-clause, in the case of areas where statutory rationing is not in force, the corresponding entries iu the "H.S. 1" Form, or Identity Cards shall be deemed to be the entries in the Ration Cards.

(2) No person shall, in connection with any marriage, serve or provide or supply more than two meals for each person invited for such marriage, and no person shall in connection with any funeral serve, provide or supply more than one meal for each person invited for such funeral.

Explanation.—On occasions of marriage or funeral, for not more than 50 persons who are invited as guests, rationed foodgrains may be issued, provided sufficient quantity of foodgrains are available for such issue:

Provided, that nothing in this clause shall apply to the distribution of pieces of wedding cakes or to the sending of sweets as presents in celebration of the marriage. The quantity of rationed foodgrains used for preparing such cakes or sweets shall not exceed the quantity admissible for 50 persons on the occasion of marriages.

(3) (i) Save as provided in paragraph (ii), nothing in this clause shall apply to subscription dinners in a club or association premises or in catering establishments arranged by any club or association for *bona fide* members of such club or association.

(ii) Where a subscription dinner is arranged by a club or an association under paragraph (i), not more than 24 non-members shall be invited as guests for such dinner.

(iii) No rationed foodgrains shall be issued for any subscription dinner arranged by a club or an association under this sub-clause.

(4) (i) Save as otherwise provided in this order, no owner or other person in charge of a Catering Establishment, and no person, shall cater for any gathering or party of more than 24 persons at a time, of food prepared out of rationed articles at any function or in any public or private entertainment. Every such owner or person shall give notice of his intention to entertain more than 20 persons and obtain the previous permission in writing of the Director or of any other Officer authorised by him in this behalf:

Provided that this sub clause shall not apply to the catering of persons with liquid refreshments, nuts, fruits (whether fresh or dried), potato chips, preparations of gram products' sweet potatoes, bananas, tapioca, groundnut-atta, sugar, gur, shakkar, salt, ghee, oil or vegetable oil products and pansupari but without admixture of wheat, rice, ragi, jawar, bajra, barley and maize or other controlled cereals.

(ii) No rationed foodgrains shall be issued in respect of any function or entertainment specified in paragraph (i).

The public are cautioned that a very serious view will be taken of any violation of the above regulations and that there will be no hesitation in launching prosecutions against all those concerned in such offences.

In the present context of the food situation it is earnestly hoped that the organising or undertaking of entertainments or feeding in public or private on any lavish scale will be avoided and that the number of persons to be entertained on obligatory occasions will be restricted to the absolute minimum. It is also necessary to add that requests for any relaxation in this behalf or exemption from austerity orders will under no circumstances be considered or complied with. Government would, against the background of serious food shortage facing the country this year, solicit the co-operation of the people of the State in conserving our limited food resources by the observance of the strictest economy in their use and the avoidance of all possible wastage.
